

Beads and Plenty More Class List

We ask that all class supplies be purchased from our stores. Our class fees have been kept 'reasonable' because we expect you to purchase supplies from our store. Our classes do not include supplies unless it is specifically indicated in class description.

Want to create your own class date? Not a problem! Just talk to us about either a private tutorial at \$25.00/hour or \$35.00/ 1 1/2 hours (most two hour classes can be condensed to a one hour time slot because you work faster one-on-one). A class date can also be arranged for you and two or more of your friends at a time more convenient for your schedules.

Kids ages 12 and older are welcome to register for any class while kids ages 10 and up are welcome in some classes provided an adult registers with them.

Sorry, we do not offer classes for kids younger than 10. Instead, our sales associates can help you find an age appropriate bead kit from our selection.

Class space is reserved by prepayment of class fee. Space is generally limited to six students and is available on a first come first served basis.

Should you need to cancel and can give us more than 48 hours notice, we will refund your prepaid fee.

In the event of a class cancellation we can apply your class fee to an alternate class or a full refund of prepaid fees is available.
